 City Limits Boundary

 Road Jurisdiction - TxDOT

1:72,224

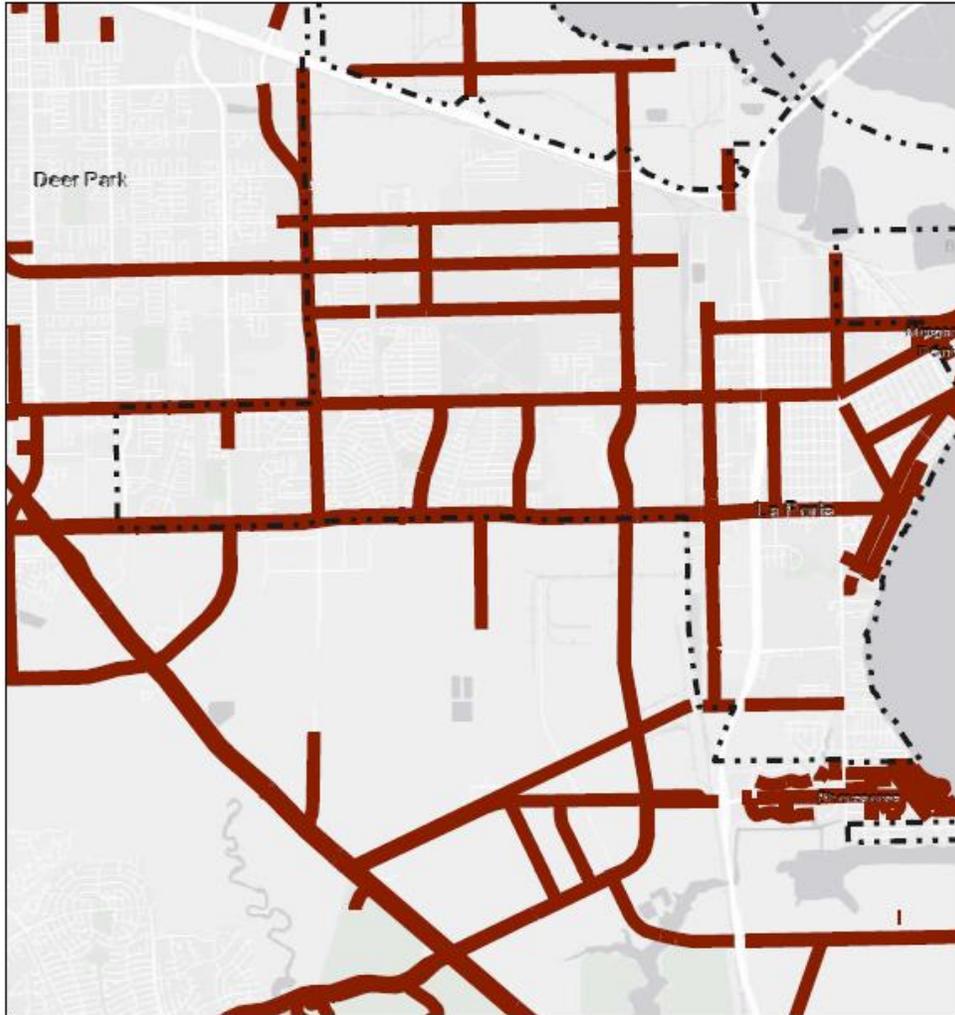

## RESPONSIBILITIES

La Porte is well-connected to the region and is located along two major state highways: SH 225 and SH 146. The Texas Department of Transportation has maintenance responsibility of these two major transportation corridors.

TxDOT also maintains South Broadway (Old Hwy 146), south of Fairmont Parkway and the Wharton Weems Boulevard connector.

## Harris County Roads

4/26/2023, 2:54:49 PM

 City Limits Boundary

 Street Jurisdiction - HCO (2018 INTERNAL ONLY)

1:72,224

Harris County maintains a great number of thoroughfares and connectors within La Porte City Limits.

Most notably, Fairmont Parkway, Spencer Highway, Underwood, Bay Area Blvd, 16<sup>th</sup> Street, Barbours Cut Blvd, and Sens Road.

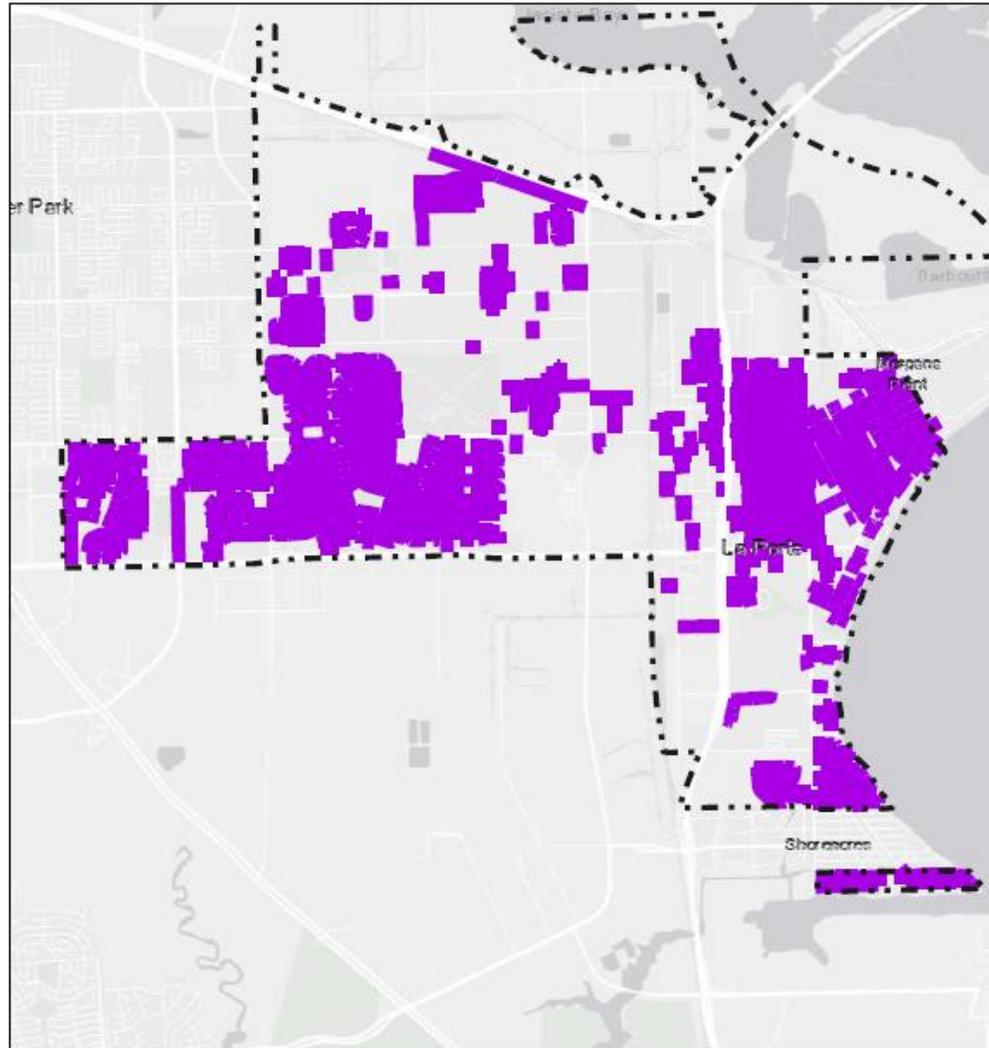

This includes maintenance and operation of the traffic signals, signage and the drainage systems adjacent to the roadways.

La Porte must maintain continuous coordination with these other entities for roadway maintenance and drainage issues. Work requests that are reported to the City are dispatched through an on-line notification to the proper contacts and followed up with a call to the appropriate dispatch center.

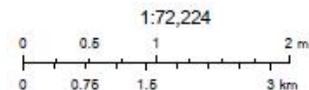

## La Porte Streets

4/26/2023, 3:02:15 PM

City Limits Boundary

Street Jurisdiction - CLP (2018 INTERNAL ONLY)

La Porte maintains 279 miles of streets within the City Limits.

Since 2001, voter authorization of a street maintenance tax, additional repairs and replacements have been made possible. The one-quarter of one percent sales tax generates roughly 1.6 million dollars per year. The voter re-authorization of this revenue takes place every four years. Most recently in May of 2022.

These funds can only be used to maintain or repair existing municipal streets or sidewalks.

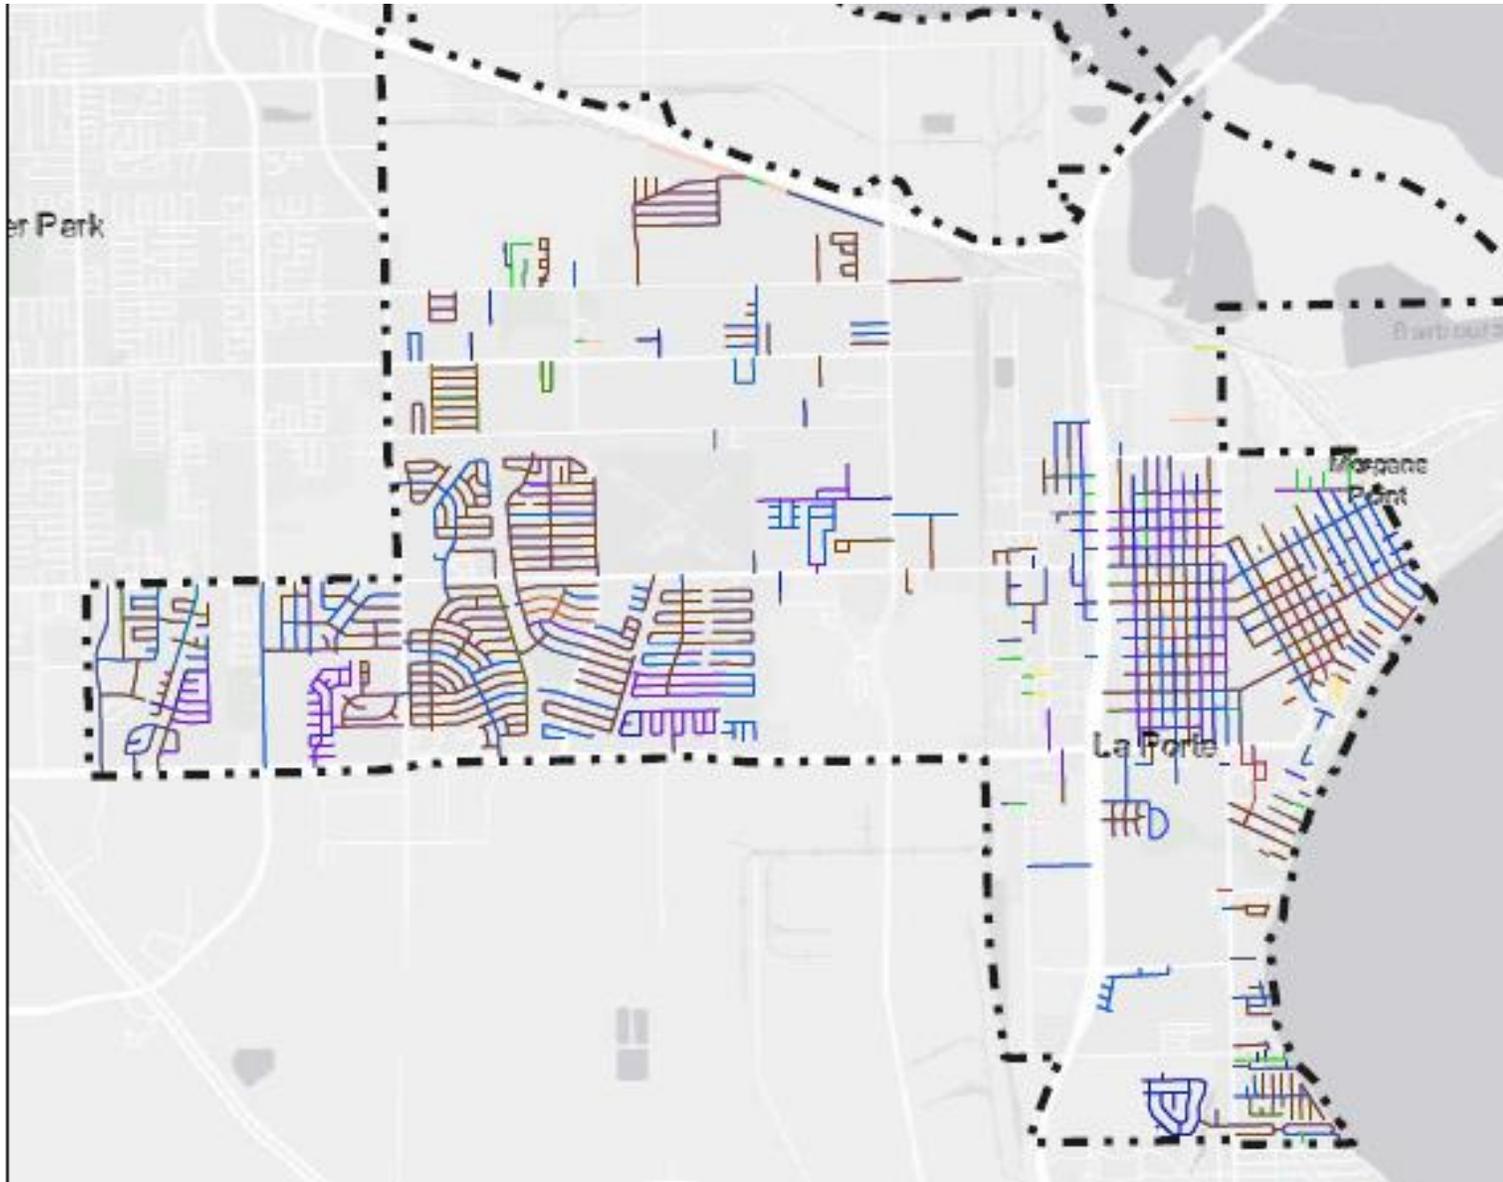

# STREET ASSESSMENT PLANNING TOOL

Approximately every 5 years, the City contracts with a consultant to conduct an assessment on the condition of La Porte maintained streets. The assessment scale spans from 1 to 9 with 9 being the best condition rating.

## CITY OF LA PORTE MAINTAINED STREETS

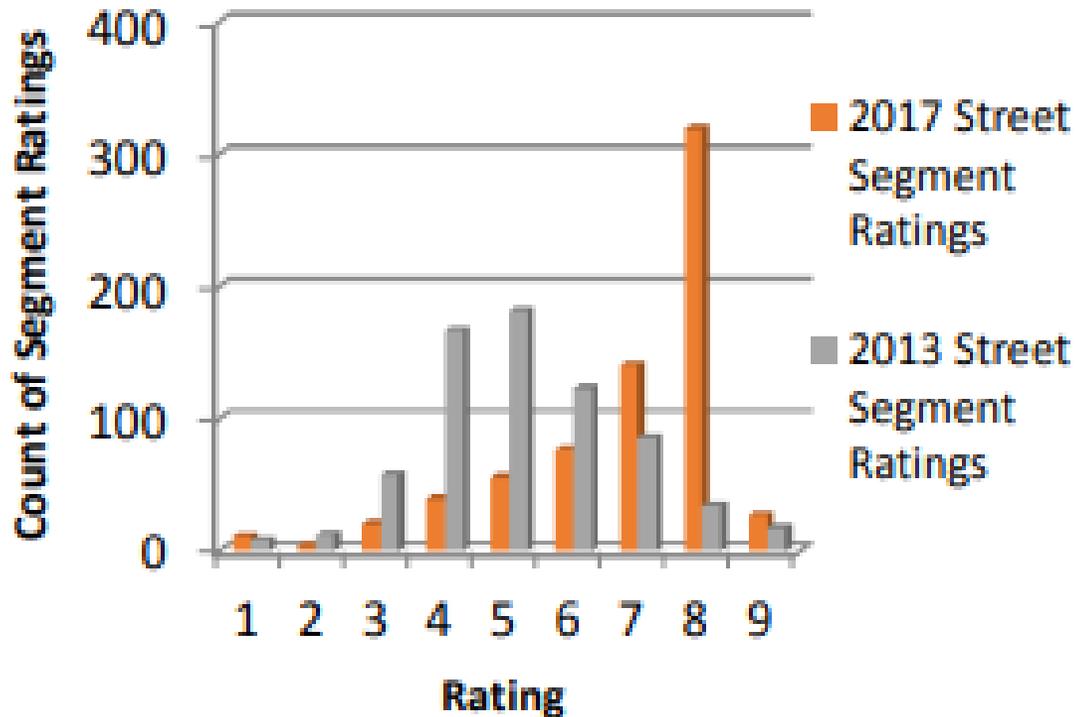

PAVEMENT CONDITION RATING	PROPOSED IMPROVEMENTS
 9	No Improvements Required
 8	No Improvements Required
 7	Minor Crack Sealing on All Pavement Types
 6	Major Crack Sealing on All Pavement Types
 5	10 to 20% Partial Base Repair & Overlay - Asphalt 10 to 20% Minor Concrete Point Repair - Concrete
 4	20 to 30% Major Base Repair & Overlay - Asphalt 20 to 30% Major Concrete Point Repair - Concrete
 3	30 to 40% Major Base Repair & Overlay - Asphalt 30 to 40% Major Concrete Point Repair - Concrete
 2	Full Depth Redamation / Stabilization & Overlay - Asphalt Remove and Replace - Concrete
 1	Full Depth Redamation / Stabilization & Overlay - Asphalt Remove and Replace - Concrete

RECONSTRUCTION  
EFFORTS.**

## Comparison of Ratings 2017 vs. 2013

The chart indicates the differences in condition ratings after 4 years of targeted improvements. The 2023 assessment is currently underway.

The assessment will provide a budgetary planning tool to identify and prioritize areas of need. The information results in a one-year, and five-year capital improvement plans.
