

CITIZEN'S ADVISORY COUNCIL TO LA PORTE INDUSTRY

San Jacinto College LyondellBasell Center for Petrochemical, Energy, and Technology Overview and Tour

Jeff Pearce (Coordinator, Education and Workforce at San Jacinto College LyondellBasell Center for Petrochemical, Energy, & Technology), presented an overview of CPET, and along with Joseph Zwiercan (Department Chair, Industrial Technology at San Jacinto College LyondellBasell Center for Petrochemical, Energy, & Technology), took attendees on a tour of the facility where they visited areas devoted to process operations, instrumentation, electrical, nondestructive testing and craft trades.

San Jacinto College has served as the training leader for the petrochemical, energy, and technology workforce in the greater Houston area for more than 50 years. The CPET expands their ability to develop and train the industry's current and future workforce. The facility and its curriculum were developed from an advisory council of leaders in the petrochemical industry and plant managers.

Please visit CPET's website for further details on the programs that they offer, facilities, and industry partners.

The CAC is a forum for candid and constructive dialogue between those who live or work in La Porte, Morgan's Point, and Shoreacres and the managers of 41 chemical plants in La Porte. The CAC welcomes visitors. It meets again on Tuesday, August 4 at 6:00 p.m. to hear about the impact of AI on the petrochemical industry. Contact info@laportecac.org if you wish to attend. The CAC shares information about its meetings and presentations at www.laportecac.org.
